- 11 Product Backlog
- 12 Sprint Backlog
- 13 Conclusion

# Introduction

- Deals with activities related to showroom.
- Mobile commerce system, and run under Ionic platform.
- It is very helpful to find rate, comment and review the products easily.
- It is used for promotion and selling these product with single application.
- The main objective is to computerize the system.
- It is a platform for shopping.

# Existing System

The existing system has some disadvantages.

- Staff over-reliance may diminish customer loyalty through a bad experience.
- The initial time and productivity cost of implementation.
- It may not suit every business.
- Security concerns associated with centralized data.

# Proposed System

Major Advantages of the proposed system.

- It allows for the consolidation of customer data and the basis for deep insights.
- It speeds - up the sales conversion process.
- It increases staff productivity, lowering time - cost.
- It allows geographically dispersed teams to collaborate effectively.
- Personalization and improved query resolution.

# Modules

- ADMIN

There are some functional modules, and they are:

- PRODUCT MANAGEMENT MODULE

- ADD

New products can be added.

- ACTIVATE/DEACTIVATE

It is possible to activate and deactivate products.

# Modules...

- USER MANAGEMENT MODULE

- ROLLS

This module assign rolls to the staffs.

- PERMISSION

It provide permissions to the staffs.

# Modules...

- OFFER MODULE

It view the currently available offers of the selected products to the users.

- CATEGORY MODULE

It view the products, blog, and user story based on the category.

# Modules...

- BLOG MANAGEMENT MODULE

- APPROVE

The admin can approve or disapprove the blog.

- LIKE/DISLIKE

The admin can like and dislike the blog.

# Modules...

- COUPON MANAGEMENT MODULE

- COUPON GENERATION

The admin can generate coupon.

- NEW COLLECTION MODULE

Admin can place new products at top.

# Modules...

- TODAYS DEALS MODULE

It display the offers as per the day.

- STORY MANAGEMENT MODULE

- APPROVE

The admin can approve or disapprove the user story.

# Hardware Specifications

- 32-bit or 64-bit
- 2GB RAM
- 2 tb hard disk

# Software Specifications

- Ionic
- Python
- Framework:Django
- MySql(back-end)
- HTML
- Web browser: Microsoft Internet Explorer, Mozilla, Google Chrome
- Operating System: Windows 7 or above

# Table Design

Table: Login

| Field Name | Data Type | Constraints | Description |
|------------|-----------|-------------|-------------|
| username   | varchar   | primary key | name        |
| password   | varchar   | not null    | password    |
| type       | varchar   | not null    | type        |

## Table Design...

Table: Products

| Field Name        | Data Type    | Constraints | Description       |

# Screenshot

The screenshot shows the 'Add Product' form in the Airden dashboard. The left sidebar contains the following menu items: Dashboard, Products (with a sub-item 'List Product'), Add Product, Sales, Users, Blog, Newsletter, New Collection, Today's Deals, Story, and Enquiry. The main content area is titled 'Products' and includes a breadcrumb trail: Home / Products / Add Products. The form itself is titled 'Enter Products Details' and contains the following fields and options:

- Name\***: A text input field.
- Check Availability**: A blue link.
- Product Unique Code\***: A text input field.
- Discount Percentage**: A text input field.
- Category\***: A dropdown menu with the option 'Select category'.
- Product Attributes**: A text input field.
- Do you want to add this product in new collection?**: A checkbox.
- Short Description**: A text input field.
- Description**: A rich text editor with various formatting tools.

## Screenshot...

The screenshot shows a web application interface for adding a new category. On the left is a dark sidebar with the user's name 'Airden' at the top. Below it are menu items: Dashboard, Products, Sales, Users, Blog, Newsletter, New Collection, Today's Deals, Story, Enquiry, Reviews, and Source Menu. The main content area has a top navigation bar with a hamburger menu icon, the title 'Category', and a breadcrumb trail 'Home / Category / Add Category'. A user profile icon is in the top right corner. The main form is titled 'Enter Category Details' and contains the following fields and elements:

- Name:** A text input field with the placeholder 'Name'.
- Check Availability:** A blue link below the Name field.
- Parent Category:** A dropdown menu with the placeholder 'Select Parent Category'.
- Sub Content:** A text area with the placeholder 'Sub content for homepage'.
- Content:** A rich text editor with a toolbar containing icons for undo, redo, bold, italic, strikethrough, link, unlink, bulleted list, numbered list, indent, outdent, link, unlink, source, and a help icon. The toolbar also includes text formatting options like 'B', 'I', 'S', 'A', 'H1', 'H2', 'H3', 'H4', 'H5', 'H6', 'P', 'Pre', 'Code', 'Quote', 'Table', 'Table of contents', 'Link', 'Unlink', 'Source', and a 'Format' dropdown menu.

The screenshot shows a web application interface for 'Offer Management'. At the top, there is a navigation bar with a hamburger menu icon on the left and a user profile icon on the right. Below the navigation bar, the page title 'Offer Management' is displayed, followed by a breadcrumb trail: 'Home / Offer Management / Add Offer Management'. The main content area is titled 'Enter Offer Management Details' and contains two input fields: 'Title\*' and 'Description'. The 'Title\*' field is a single-line text input, and the 'Description' field is a multi-line text input. A blue 'Submit' button is located at the bottom left of the form.

## Screenshot...

The screenshot displays a web application interface for 'Offer Management'. At the top, there is a navigation bar with a hamburger menu icon on the left and a user profile icon on the right. Below the navigation bar, the page title 'Offer Management' is followed by a breadcrumb trail 'Home / Offer Management'. The main content area is titled 'List Of Offer Management' and contains a table with three columns: '#', 'TITLE', and 'DESCRIPTION'. The table lists three offers, each with a unique ID, a title 'First Offers', and a description about a discount on gifts. To the right of the description, there is a 'STATUS' field with a dropdown menu showing 'Active' (selected) and 'Inactive'. Further right, there are two icons: a pencil for editing and a trash can for deleting.

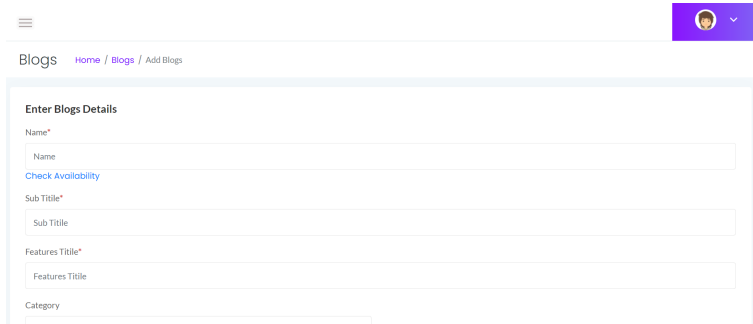

| # | TITLE        | DESCRIPTION  | STATUS   | ACTIONS   |

The screenshot displays a web application interface for adding a new blog. At the top, there is a navigation bar with a hamburger menu icon on the left and a user profile icon with a dropdown arrow on the right. Below the navigation bar, the breadcrumb trail reads "Blogs" followed by "Home / Blogs / Add Blogs". The main content area is titled "Enter Blogs Details" and contains four input fields: "Name\*", "Sub Title\*", "Features Title\*", and "Category". Each input field has a corresponding label and a red asterisk indicating it is a required field. The "Name" field is the first and largest, followed by "Sub Title", "Features Title", and "Category". A blue link labeled "Check Availability" is positioned below the "Name" field. The form is enclosed in a light blue border.
